

URBAN ANALYSIS & FORECASTING

Hemson Consulting specializes in providing urban planning, economics and municipal finance advice to public and private sector clients. Established for more than 35 years and with a growing national practice, the firm has a clear focus on helping clients to develop liveable and sustainable communities.

Our team has substantial expertise in urban and regional economics, population and employment forecasting, and long-range financial planning. We are currently seeking a consultant with a minimum of 3 – 5 years' experience ideally combining urban economic analysis, demographic forecasting, and land use policy planning.

About the Position

As a member of the Planning Team, you will work on a wide range of interesting and challenging assignments. They could involve demographics, land needs assessment, strategic planning, and economic development. Much of the work will make use of your modelling expertise and your experience in analysing complex data.

You will be joining a collegial consulting team and will be working in a dynamic working environment. Due to COVID-19, we are currently largely working remotely but the position will eventually be based in our office in downtown Toronto.

Skills Required

As a successful candidate, you will know how to think critically and apply superior analytical skills using statistical models. You will also have opportunities to demonstrate competency in research, and written and oral communication.

The ideal candidate will have a Masters degree, in a relevant field, with undergrad and post-grad course in mathematics and statistics. A planning background would be an asset.

The following are sought after minimum skills and experience:

- Minimum of 3-5 years' work experience
- Highly numerate, familiar with statistical methods, and with strong Excel skills
- Experience working with Statistics Canada demographic and employment data
- Policy and spatial analysis, using a range of technical software
- Strong written and oral communication skills

If this is an opportunity that interests you, please review our website www.hemson.com and send your resume and cover letter by Monday, January 25, 2021 to Stefan Krzeczunowicz at hemson@hemson.com.
